

## Fairfax City, VA

### Labor Market :

Employment increased by 166 jobs in Fairfax City during July and August. However, the number of job seekers also increased. The combined effect of these two trends was an increase in the average monthly unemployment rate from 2.6% for the second quarter to 2.8% in the first two months of the third quarter. The solid job growth may help to offset the effect of rising mortgage rates on home sales.

### Housing Market :
